

WE WANT YOU!

VOLTSTORAGE IS SEARCHING FOR TALENTS
WILLING TO CHANGE THE WORLD.

INTERNSHIP SOFTWARE DEVELOPMENT (m/f)

WHAT WE DO

VoltStorage GmbH is a Munich Startup and develops environment friendly, safe and durable battery storage systems for private homes. Our vision is to make renewable energy available 24/7 for everyone.

YOUR ROLE

As developer in our software engineering team you will work on different topics of product development. You will have your own fields of responsibility from the start on and you will work closely with hardware engineers and the management.

YOUR RESPONSIBILITIES

- You will be carrying out new software development from conception to implementation
- You adapt to changes quick;
- Providing creative input and supporting the general development of the company
- We are a startup - expect to work on a whole range of other related projects, that have not been touched yet.

WHAT YOU BRING

First of all, you should be passionate about our values – communication, creativity, sustainability, authenticity - and our vision to make renewables available 24/7 and to enable new possibilities everywhere. That's what it's all about! Other than that, we'd really like it if you bring us the following:

- You have been part of several software development / programming projects
- Experiences in microcontroller programming (C, Python), sensor systems, database management
- Passion for engineering great and sustainable products
- Good communication and collaboration skills
- Ability to work under time pressure and to get things done
- As you read until here, it seems you can also handle solid business communications in English.

WHAT WE OFFER

- A highly vibrant set of people
- Space for your own ideas in a dynamic, dedicated and motivating environment
- A creative workspace in central Munich
- Healthy snacks, drinks (incl. great coffee) and meals (daily lunch vouchers)

Would you like to learn more about the vision of VoltStorage, then please provide a short cover letter with a clear motivation on why you want to work for VoltStorage! Also, show us some of your projects you are proud of.
