

WE WANT YOU!

VOLTSTORAGE IS SEARCHING FOR TALENTS
WILLING TO CHANGE THE WORLD.

SPECIALIST FOR REDOX-FLOW-BATTERIES

WHAT WE DO

VoltStorage GmbH is a Munich Startup and develops environment friendly, safe and durable battery storage systems for private homes. Our vision is to make renewable energy available 24/7 for everyone.

YOUR ROLE

As a key player in our R&D team you will take a big responsibility in the product development of the heart of VoltStorage-Battery: The Vanadium-Redox-Flow battery cells. You'll be working closely with hardware engineers and the management to improve battery efficiency and production techniques to create the best possible product with an appealing customer experience.

YOUR RESPONSIBILITIES

- You will develop and improve RFB-cells from conception to implementation
- You adapt to changes quick;
- You make sure to deliver results that will boost our business on time. You are ambitious and want to grow into a lead/ senior developer role rather sooner than later;
- Material testing and sourcing;
- Developing a test bench for redox-flow batteries
- Providing creative input and supporting the general development of the company
- We are a startup - expect to work on a whole range of other related projects, that have not been touched yet.

WHAT YOU BRING

First of all, you should be passionate about our values – communication, creativity, sustainability, authenticity - and our vision to make renewables available 24/7 and to enable new possibilities everywhere. That's what it's all about! Other than that, we'd really like it if you bring us the following:

- 2+ years of experience with redox-flow batteries
- Experiences with electrode material testing, RFB-cell design, battery testing
- Passion for engineering great and sustainable products
- Good communication and collaboration skills
- Ability to work under time pressure and to get things done
- As you read until here, it seems you can also handle solid business communications in English.

WHAT WE OFFER

- A highly vibrant set of people
- Space for your own ideas in a dynamic, dedicated and motivating environment
- Competitive salary & attractive stock options
- A creative workspace in central Munich
- Healthy snacks, drinks (incl. great coffee) and meals (daily lunch vouchers)
- No yoga sessions yet (we might grow into that later)

Would you like to learn more about the vision of VoltStorage, then please provide a short cover letter with a clear motivation on why you want to work for VoltStorage! Also, show us some of your projects you are proud of.
